## FMII Course Description

This is a three-day didactic course plus an optional one-day special forensic skills workshop designed as a comprehensive review opportunity:  
Concepts and Principles in Forensic Science  
Clinical Forensic Medicine  
Mediolegal Death Investigation.  
The daily lecture schedule is subject to change to accommodate faculty availability.

## Course Objectives

Upon course completion, participants will be able to do the following:

1. Define terminology related to antemortem and postmortem findings, in order to accurately document physical findings.
2. Describe the functions of the medicolegal investigation team process, determine the need for a medical examiner, prepared for the medico-legal evaluation and effectively complete documentation for the process.
3. Identify and recognize bodily injuries and gunshot wounds, describe manners of death, legal issues and concepts and principles of toxicology.
4. Identify the signs of child abuse, SIDS, homicide vs. suicide, pediatric fatalities, environmental hazards, elderly abuse and sexual assault in order to identify cause of death and assist the medical examiner and police/governmental agencies in forensic investigations.

## Audiences:

- Death investigators/Coroners
- Physicians
- Nurses
- Healthcare Personnel
- Law enforcement officers
- Criminal Justice personnel
- Attorneys and legal personnel
- Funeral home personnel
- Organ and tissue donor network personnel
- Students

The course is nationally acclaimed and recognized for its scope, content, relevance and excellence. Dr. Dudley's reputation and field experience on high-profile criminal cases and mass fatalities assures the participants of an exceptional learning experience and enhanced forensic investigation skills development exercise. The post-course forensic skills workshop adds an immersion experience. Participants may attend individual days or the entire course.

Course registration fees include daily continental breakfasts, morning and afternoon breaks, and an **FMII Comprehensive Review** textbook, course syllabus, and FMII Certificate of Completion. The daily schedule runs from 8 a.m. to 5 p.m. with an hour for lunch on your own.
