# Forensic Radiology Course

Seminar & Workshop

Forensic Medical Investigation Institute

April 26 - 27, 2012  
Kansas City, Missouri

Co-Sponsored by:

**MINXRAY** INC.

## Course Description

This one day seminar and one day additional workshop is designed to introduce the radiology technologist, forensic autopsy technician, coroner and medical examiner to concepts and principles, application and techniques of forensic radiology.

## Course Objective

Upon completion of this seminar, you will be able to:

1. Discuss the clinical and postmortem application of radiographs, computerized tomography (CT) and magnetic resonance imaging (MRI) in forensic cases.
2. Describe the radiological procedures and protocols used in forensic medicine and pathology.
3. Identify the safety issues related to digital x-ray use.
4. Demonstrate proper use of digital x-ray equipment.

## Continuing Education Credits

This activity has been approved by the ASRT for Radiologic Technologists for a combined total of 14.5 Cat. A credits.

This activity has applied for 16 hours of continuing education credits from ABMDI for death investigators.
